COMPANY OVERVIEW

ABOUT US

We specialize in connecting top-tier manufacturers with hotels, water parks, and campgrounds around the globe.

Leveraging our extensive network, we offer a wide range of products, from thrilling water slides and aquatic spray systems to innovative AR/VR simulation experiences. Our goal is to enhance guest experiences and support your business with premium, reliable, and cutting-edge solutions.

WHY CHOOSE US?

Trusted Partnerships

We collaborate with leading manufacturers globally, ensuring you receive the highest quality products at competitive pricing.

Comprehensive Support

Our dedicated team assists you from product selection to post-installation, providing seamless support every step of the way.

Innovative & Tailored Solutions

We bring the latest in technology and design trends to elevate your facility's appeal and operational efficiency, customized to fit your specific needs.

Transparent Communication

We build trust through clear and honest communication.

Time-Saving Expertise

Focus on your business while we handle all the details.

PRODUCT PORTFOLIO

PRODUCT PORTFOLIO

WATERSLIDES

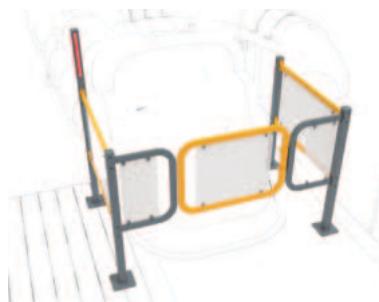

AUXILIARIES

Complement your waterslides with a suite of auxiliary products that ensure safety, streamline operations, and enhance guest experience.

Key Features

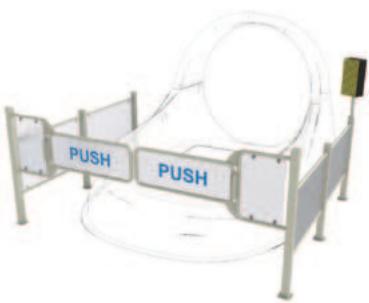

- Precision-engineered for accuracy and durability
- Designed for easy integration and maintenance

PRODUCTS

Single Start Gate

- Magnetic lock
- Hafele spring hinge
- Electrostatic powder coating
- Input and output sensors
- Red-green warning light
- Power supply
- Control system panel

Double Start Gate

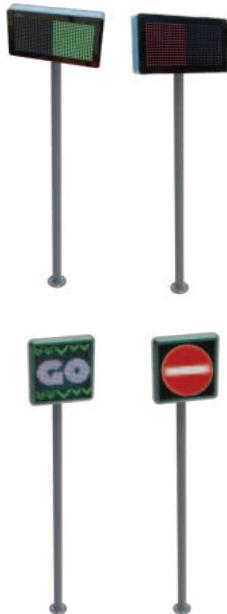

- Magnetic lock
- Hafele spring hinge
- Electrostatic powder coating
- Input and output sensors
- Double-sided red-green warning light
- Power supply
- Control system panel

Smart Scale

- Red-Green stop-go signal
- Data privacy by not displaying weight
- 24V operating voltage
- Easy access and settings menu via WiFi
- Definable minimum and maximum weight
- Log keeping
- 200kg maximum capacity

Traffic light

- Legible even in bright sunlight
- Four engaging animations
- Ability to display text messages

- Start and output sensors
- Timer and reset function
- RGB panel
- Animated graphic display
- 3-2-1 counter
- Electronic controller
- Aluminum CNC body
- 24V power box

Smart Stadiometer

- Red-green stop-go signal
- Data privacy by not displaying height
- 24V operating voltage
- Easy access and settings menu via WiFi
- Definable minimum and maximum weight
- Log keeping
- 220cm maximum measurement

Scoreboard / Speedometer

- High-brightness RGB LED screen
- Legible even in a summer day
- Sliding speed and time
- Possibility to display text messages

- Scoreboard system per line
- Start and exit sensors per line
- Button to activate horn for start
- RGB panel
- Red stop
- Electronic controller
- Metal bore not included

PRODUCT PORTFOLIO

FLOOR COVERING

Reduce risk and enhance enjoyment with foam tiles that feature slip-resistant and cushioned properties, specifically crafted for long-lasting durability in aquatic environments.

Main Features

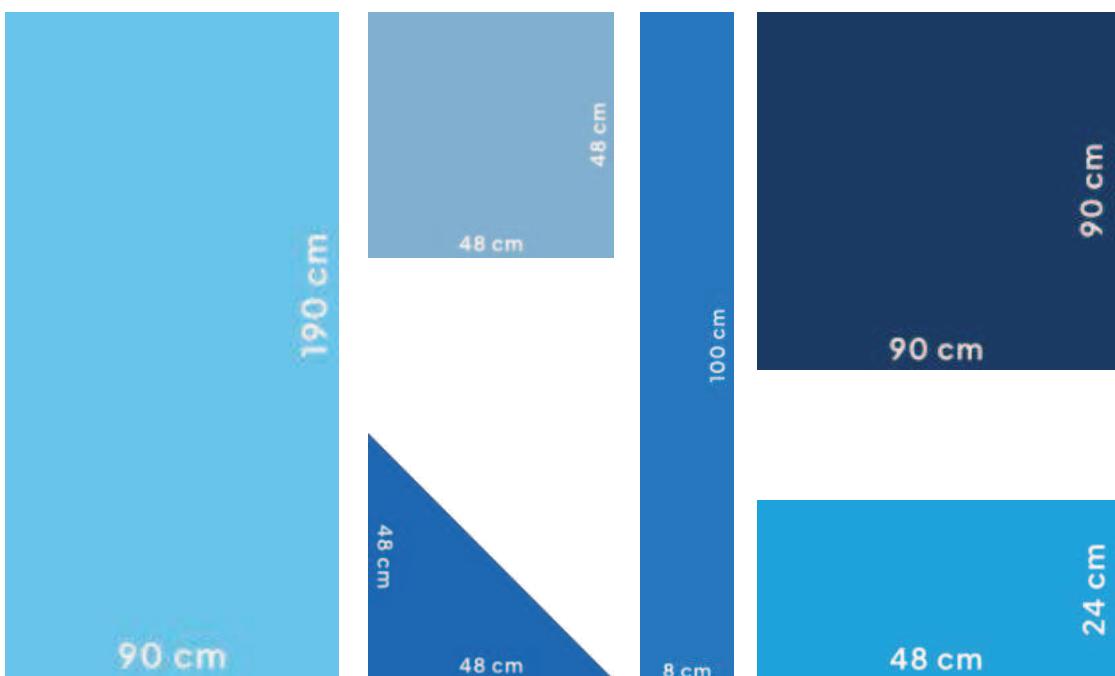

- Slip resistance
- Exceptional cushioning
- UV resistance
