ABOUT US

BRAND IDENTITY

Vision

We want to bring water fun to people all over the world.

Mission

We want to provide flexible solutions to big and small clients, whatever their needs.

WE are

Smart

We don't just work hard, we work smart.

Open minded

We listen to our client's feedback, all input is valuable.

Leaders

We are leaders in the industry and keep up to date on new technologies and developments in our niche.

Unique

We offer unique client driven solutions, tailored to their individual needs.

Transparent

We are trustworthy and operate transparently. We align with industry regulations and best practice.

Innovative

We provide solutions, even when it means doing something new.

Outstanding

We are only satisfied when we provide the best solutions around.

No-nonsense

Our solutions are straightforward and sensible, we get things done.

Skilled

We have more than 10 years of experience in the industry and have the necessary expertise to provide quality solutions for big and small projects across the board.

WHO WE ARE

Established in 2021 in Warsaw, Poland, Waveast embodies the founder's vision, expertise and passion for the amusement and entertainment industry. With over a decade of collective experience, its team of highly qualified engineers and technical specialists are dedicated to providing high quality solutions for theme parks, waterparks, hotels and camping sites across the globe.

“At Waveast WE pride ourselves on our swift, secure, and superior quality services.”

Over the years the company has grown to include a workforce of over 30 employees. Ranging from installers and repairmen to office staff, the Waveast team is competent, efficient and committed to maintaining its high standard of operations. Waveast now boasts a catalog of over 100 projects worldwide, spanning across 40 countries worldwide. This has established them as industry leaders across EMEA, APAC, and LATAM.

“As WE look to the future we aim to evolve into a comprehensive solution partner, capable of catering to the needs of all clients in both the aquatic and thematic industry niche.”

4

BEHIND THE NAME

Co-founders Levent and Fatih started their business based in different countries. One in Poland and one in Turkey, they often had to commute to get together and work on their shared vision for the company. The name Waveast calls back to these origins—it originally came from the airport codes on their tickets, WAW for Warsaw and IST for Istanbul. IST became EAST as a callback to the eastern origins of the founders, but the name WAWEAST didn't sound quite right so they continued to brainstorm it. Moving forward they found the perfect solution: inspired by the aquatic theme of a lot of their services “WAWEAST” turned into “WAVEAST”, a playful name that shows their commitment to innovation, excellence, and (of course) water fun!

Waveast is more than just a name—it's a testament to their journey, expertise, and unwavering dedication to providing exceptional service, with a touch of humor and creativity. It is strategic and fun, just like them!

MEET OUR TEAM

FATİH GÜRSOY
Managing Director & Co-owner

Born in Istanbul in 1984, Fatih is one of the two founders and co-owners of Waveast. He loves to travel around the world and is proud to say that he'll hit the 50 countries visited mark by the end of the year. Now based in Warsaw, he has been working in the amusement park and on-site entertainment niche since 2011, a perfect fit for his profile and passions.

As math and geography are his favorite subjects, it comes as no surprise that he decided to study Civil Engineering, a field with ample opportunity for travel. This allowed him to go work on housing projects in Russia and Turkey straight out of university, both experiences that gave him the necessary tools to move on to work for a world renowned Turkish water slide manufacturer. He instantly fell in love with the niche and stayed with the company from 2011-2021, a whole 10 years!

By 2021 he had learned all he could and it was time to move on: that's when he and Levent established Waveast, where he uses his impressive industry know-how as Managing Director of Installation and Park Services. As expected from a lover of water fun, he likes to swim—that's not all though, he likes a bunch of other sports like volleyball and soccer, and has recently taken up tennis.

LEVENT NEJAT ÇAKMAK
Managing Director & Co-owner

Born and raised in Istanbul, Levent always knew he wanted to be an engineer. These aspirations came to fruition when he chose to get his degree in geological engineering, one of the most sought out specializations at the time. He started working as an infrastructure engineer in Libya right out of college, choosing to stay there for three years. Since then he has built an impressive portfolio, including a ski resort construction project in Azerbaijan and the tunnel construction project in Algeria.

After returning to academics to obtain a diploma in international welding engineering, he started working for the same water slide manufacturer as Fatih in 2013. There the two cemented their now 20-year long friendship, which alongside their years of relevant experience led to their decision to start Waveast in 2021. Since then both his career and personal life have soared—not only is he co-owner and managing director of Waveast, but he is also married and a proud father to a beautiful daughter!

His passion for engineering doesn't stop at work though, in his free time he likes to visit auto services as he is a self defined vintage car addict that can't get enough of his garage. That said, it doesn't take up all his free time as he also likes to cook for his family and friends, an activity he never thought he'd do before his wife took the choice out of his hands. Here to prove that it's always good to try new things, he's surprisingly surpassed all expectations in the kitchen: he's both great at it and a fan!

The first waterslide was invented almost 100 years ago!

WATERSLIDES & AQUATIC FEATURES

Design & Sales

- Comprehensive assessment of the investment prerequisites
- Development of suitable effective solutions
- Renovation and rejuvenation solutions for both existing products and new projects
- Facility management consultancy
- Shop drawings, execution plans, and structural load and moment calculations and analyses

7

Maintenance & Refurbishment

Waveast also specializes in maintenance and refurbishment services. Their certified personnel of service technicians are fully qualified to work on all repair projects concerning composite elements, with most of them having prior experience on production lines for composite manufacturers. So how does it work?

Their technicians conduct an inspection of the client's park or water slides prior to starting maintenance, after which they deliver both a comprehensive report and scope proposal. And that's not it! Their maintenance technicians come with consumables and chemicals of the highest quality, sourced from the Polish market—WaveEast doesn't want to burden their clients with unnecessary stress so they handle both the sourcing and their transportation to the worksite.

- Comprehensive park and product inspections
- Annual maintenance program, including but not limited to joint re-sealing, damage repair, polishing, and waterslide cleaning
- Repainting of waterslides, both inside and out
- Seasonal warranty for maintenance services

...Canada in 1986!

Installation & Technical Advisor

The Waveast team is highly qualified to handle projects as both technical advisors and site managers. Their 12 years of industry relevant collective experience speaks to their level of expertise and the value of their consultancy.

With more than 50 projects completed by their installers to date, they offer only top notch installation services! They have all required legal work permits, and all the necessary health and safety certifications. Their installers are also available to relocate to any European country, and come equipped with all needed installation tools and equipment— and worldwide? Location is never an issue, so long as the installation equipment can be transported by air travel, they can reach anywhere!

- Method Statements and comprehensive action plans, from ideation to installation
- Products assembly with the assistance of their experienced technical advisors and/or installers
- Timely installation and OHS/EN regulations compliance
- Worldwide coverage for most projects, EMEA coverage for all

Some water slides can reach the exhilarating speed of 65 miles per hour!

AMUSEMENT RIDES, CLIMBING UNITS & PLAYGROUNDS

Consulting services

- Project development for high quality amusement rides, with a focus on experience, design, innovation, safety
- Industry introductions with leading manufacturers and project discussion facilitation
- Comprehensive project management, from ideation to installation
- Development of comprehensive master plans

WATER TECHNOLOGY & HYDROMECHANICAL SYSTEMS

Water Treatment

Waveast specializes in providing comprehensive solutions for water parks, specifically focused on Slide Circulation systems and filtration systems. To ensure everything runs smoothly, they handle all aspects of the projects their clients commission. This includes but is not limited to high quality material supply, expert on-site installation, thorough testing, and the creation of all technical assets needed for the project

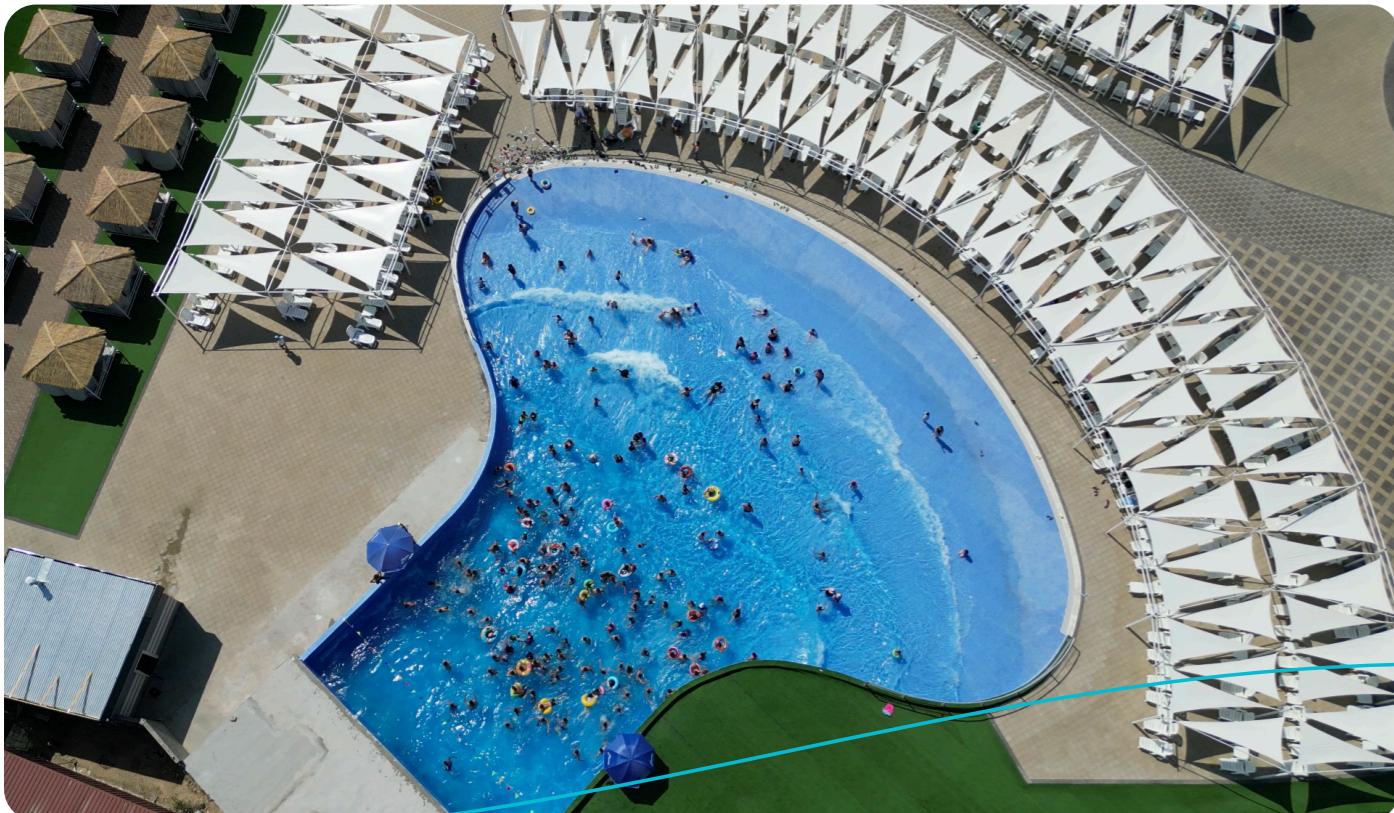

(such as the blueprints and mechanical/electrical design solutions). Their systems are aligned with global standards for efficiency to ensure the long-term dependability of the water slides, but that's not all— Waveast guarantees energy-efficient systems that are environmentally friendly and capable of significantly decreasing operational costs. What a deal.

10 Wave Pool

The Wave Pool is like a timeless classic. No water park experience feels complete without— the flowing of the waves promises a refreshing and exhilarating aquatic experience for all. Whether

you're a kid splashing around or an adult looking to chill, Wave Pools are the place to go. It's like a classic, but it will never get old.

WATER TECHNOLOGY & HYDROMECHANICAL SYSTEMS

Rivers

Diving into water park rivers should be an adventure and Waveast is here to help it live up to that promise. Their river systems are created with a strategic design approach that leverages state-of-the-art engineering to enhance both

the visitor's experience and the park's aquatic offering. With special features such as the Lazy River, Water River, Wave River, Speedy River and Rapid River, visitors of all ages are guaranteed to have a blast!

Surf Pool

The Constant Flow Surf Pool is rising in popularity, and for good reason. Its captivating visual effects and ambience make it a valuable asset for hosting all sorts of events, such as marketing events, group gatherings or competitions. Three standard types

are available: the Single Surf Pool, the Double Surf Pool, the Triple Surf Pool. That said, Waveast also offers special customization services based on the project's requirements.

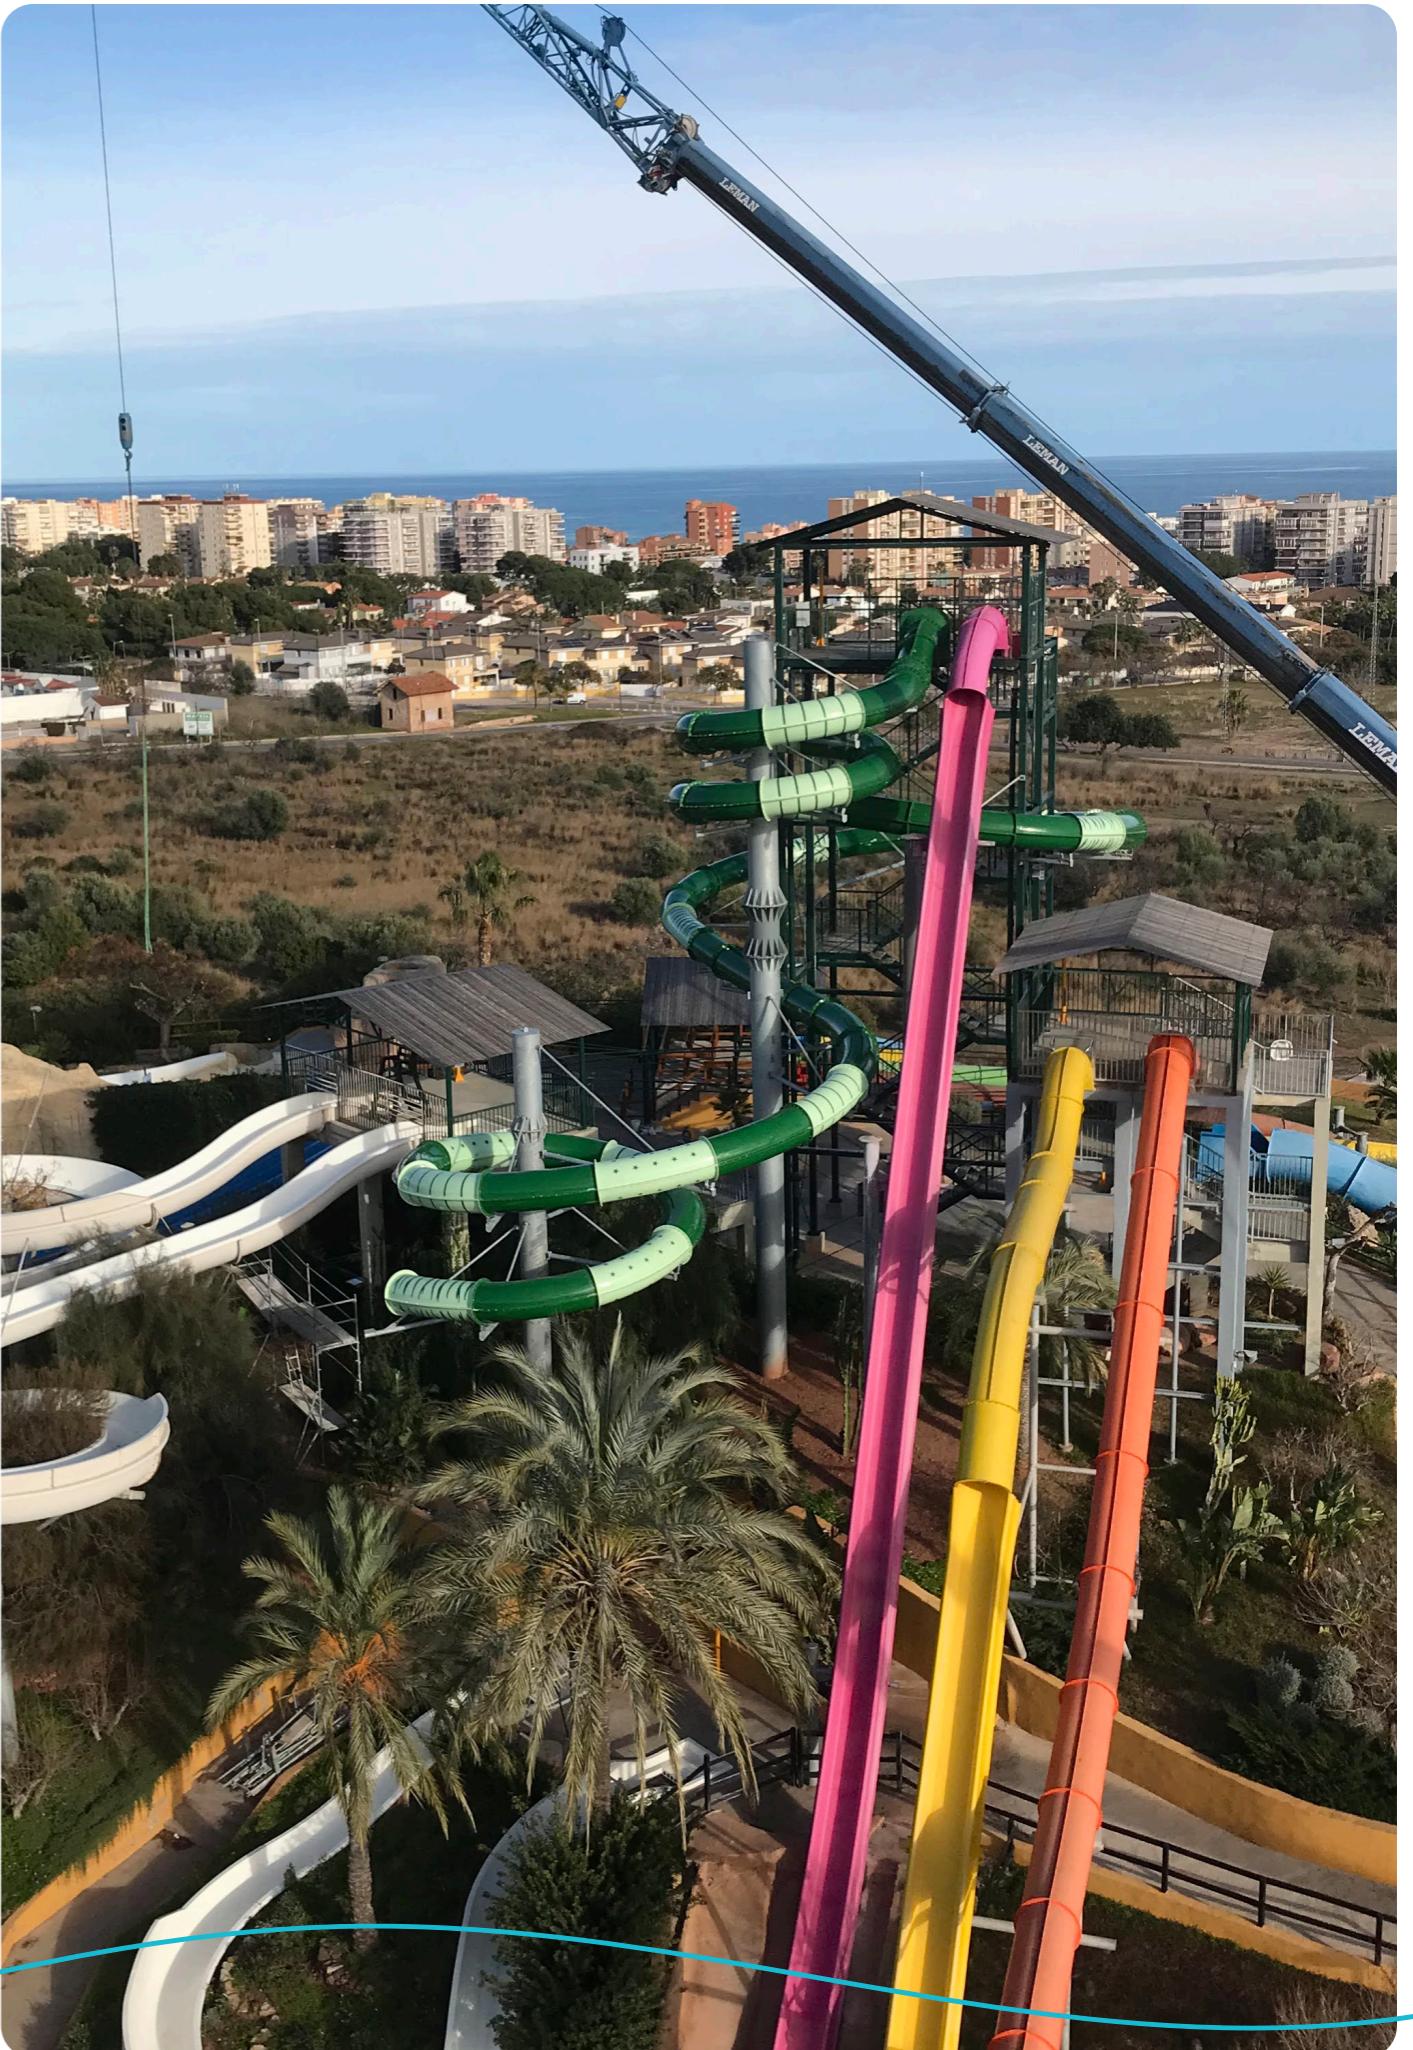

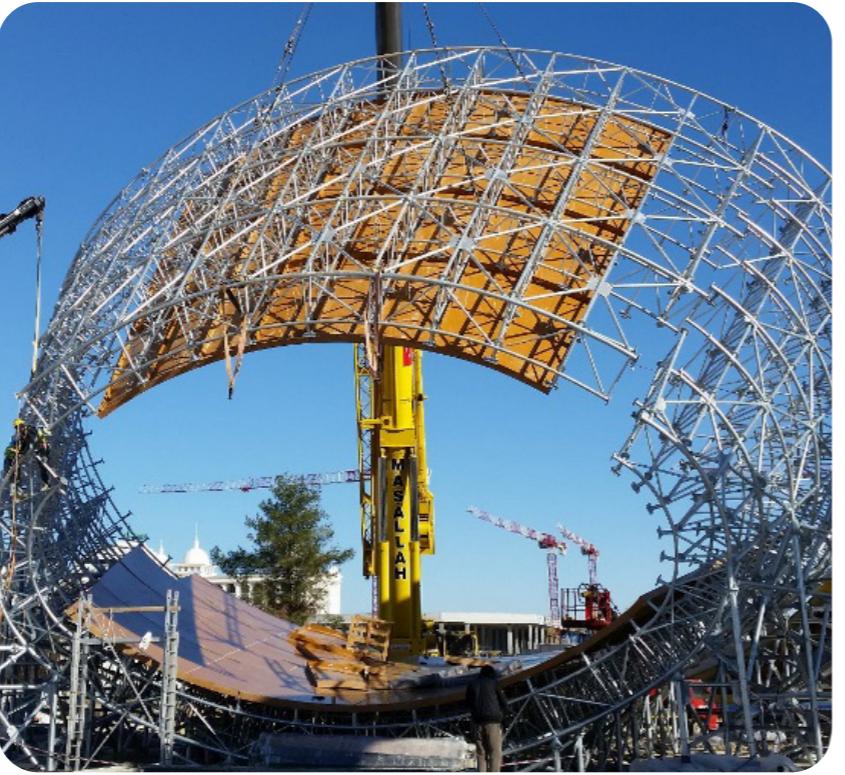

STEEL STRUCTURE ASSEMBLY

The Waveast team is specialized in the assembly of steel structures and components, alongside other technological installations. Their installers have years of experience assembling and repairing steel structures and are able to flexibly operate based on the client's specific requirements, regardless of project.

They install structures in both carbon steel and stainless steel, including:

- Platforms
- Warehouses
- Shelters
- Industrial buildings
- Stairs, handrails

THEMING SYSTEMS

Foam-Rubber Tile Flooring

Waveast's certified tile flooring comes with slip-resistance, cushioning properties and a design that guarantees lasting durability in aquatic environments. This great looking flooring will impress visitors and is a must have safety feature for areas such as:

- Splash Parks
- Waterparks
- Pool Decks
- Zero-depth entries
- Slide stairs

14

15

Pebble Decoration

- 100% Waterproof and draining
- Waveast's pebble decoration is not only an efficient draining system for floors and terraces, it's guaranteed to be completely watertight
- Natural marble
- Natural crushed marble is a durable and efficient anti-slip material. Washed and polished for your environment, choose Waveast's pebbles if fresh and exclusive is the look you're going for
- Heat reduction
- Waveast's pebble decoration comes fit with technology that distributes heat, preventing it from concentrating in sun-exposed areas
- Easy application
- Pebble decorations are easy to apply to floors and walls both. Even on vertical surfaces, they're durable and guaranteed to last

Artificial Rocks

Waveast's artificial rocks are designed to mimic the shape and texture of natural rocks. They are available in all sizes and can be sculpted to fit specific requirements, allowing them to fulfill both ornamental and functional needs. This makes them a must have for all hotels, amusement parks and theme parks aiming to recreate nature's charm! Their aesthetically pleasing appeal is just the choice for those who want their guests to kick back and chill.

Façade Application

The Waveast team has extensive experience as specialist contractors for façades. Their first-rate solutions harness this expertise into installation services of the highest standard, with a focus on building envelope components. Their extensive know-how with materials has also led them to further specialize— their aluminum structures, glass structures and rainscreen cladding façades are some of the best around.

Furniture Components

Waveast can also provide waterparks, hotels, and campgrounds with a wide assortment of furniture components. Their extensive selection of products includes the following:

- Cabinets
- Platforms
- Decking
- Lockers
- Pergola
- Desk/Table Sets
- Doors
- Bedding
- Storage Units

COMMISSIONING & CERTIFICATION

Waveast offers comprehensive safety management for both water parks and leisure pools in family vacation resorts. This includes:

- Inspections
- Waterpark safety certifications performed by an internationally accredited inspection entity (ISO/IEC 17020), in accordance with EN and/or ASTM standards
- Technical audits with comprehensive engineering reports for: pool safety, lifeguard and operational procedures, water quality, maintenance programs, engine rooms, valves and pipes
- Technical advisory services after an inspection or pre-inspection

Applicable Regulations

16 WaveEast's inspections and certification services are compliant with the following international European (EN standards) and/or American (ASTM) reference norms:

WATER SLIDES (Both the slide and the exterior platforms for access)

- EN-1069 (Part 1): Safety requirements and test methods
- EN-1069 (Part 2): Instructions
- ASTM F2376-22. Classification, Design, Manufacture, Construction, and Operation of Water Slide Systems

WATER GAMES & EQUIPMENT (Both the water parks equipment and the games in the children's pools, as well as games in shallow areas)

- EN-17232. Safety requirements, test methods, and operational requirements
- ASTM F246. Manufacture, Construction, Operation, and Maintenance of Aquatic Play Equipment

INNOVATION AND NEW TECHNOLOGIES

The future is here and Waveast is ready! Their team has partnered in Poland with DOF robotics to bring good old water fun to the metaverse with high quality, high fidelity and visually engaging VR scenarios—DOF's expertise in new technologies and creative storytelling is the perfect addition to Waveast's industry know-how.

With 450+ projects spread across the world, DOF Robotics is the best choice to expand water thrills to new horizons. Founded in 2006, the Turkish company has proven its worth with its successful expansion into the international market. DOF now has branches in the US, UK and AU, with a new branch opening soon in China.

What does DOF do?

DOF spreads Fun around the world with the power of Innovation.

Their high quality Stories are unforgettable Experiences that bring the Adrenaline fueled thrills of Amusement rides to the world of VR.

Why DOF?

- DOF solutions are safe and secure. All DOF projects are compliant with industry certificates such as TUV, ASTM and Socotoec, amongst others
- E2E Solutions. Years of experience in the amusement and entertainment industry guide DOF in providing solutions tailored to the individual client's needs and location, imagination is the limit to what they can deliver
- 24/7 Support. Waveast provides 24/7 technical support on all its projects, regardless of location

REVIEWS

Notes

FR

Nous sommes très satisfaits de la prestation des équipes de Waveast pour leur assistance au montage de toboggans. Nous espérons travailler à nouveau avec Waveast sur nos prochaines installations. Cette assistance nous permet de vendre plus de projets chaque année, c'est donc un investissement rentable pour nous aussi.

Yvan PILLONEL
- Owner at Park & Eau

EN

We are very satisfied with the performance of the Waveast team for their assistance in assembling slides. We hope to work with Waveast again on our next installations. This support allows us to sell more projects each year, so it's a profitable investment for us too.

EN

Waveast is a company that we really need in the Greek and Cypriot market. It has been created by people who know the subject and have all the necessary experience and know-how to offer important solutions to the industry. There are no good or bad projects. Our projects are characterized by good or bad assembly and good or bad maintenance. Waveast is the company that can provide us with the best assemblies and of course the best maintenance. Waveast is the important partner for all of us who create projects. I wish from the bottom of my heart that they continue to evolve and excel in the subject and industry we all refer to.

Η Waveast είναι μια εταιρεία που πραγματικά χρειαζόμαστε στην Ελληνική και Κυπριακή αγορά. Έχει δημιουργηθεί από ανθρώπους που γνωρίζουν το αντικείμενο και έχουν όλη την απαραίτητη εμπειρία και τεχνογνωσία να προσφέρουν σημαντικές λύσεις στη βιομηχανία. Δεν υπάρχουν καλά ή κακά έργα. Τα έργα μας χαρακτηρίζονται από καλές ή κακές συναρμολογήσεις και από καλές ή κακές συντηρήσεις. Η Waveast είναι η εταιρεία που μπορεί να μας προσδώσει τις καλύτερες συναρμολογήσεις και φυσικά τις καλύτερες συντηρήσεις. Η Waveast είναι ο σημαντικός συνεργάτης για όλους εμάς που δημιουργούμε έργα. Εύχομαι από καρδιάς να εξελίσσονται διαρκώς και να διαπρέπουν στον αντικείμενο και στην βιομηχανία που αναφερόμαστε όλοι εμείς.

EN

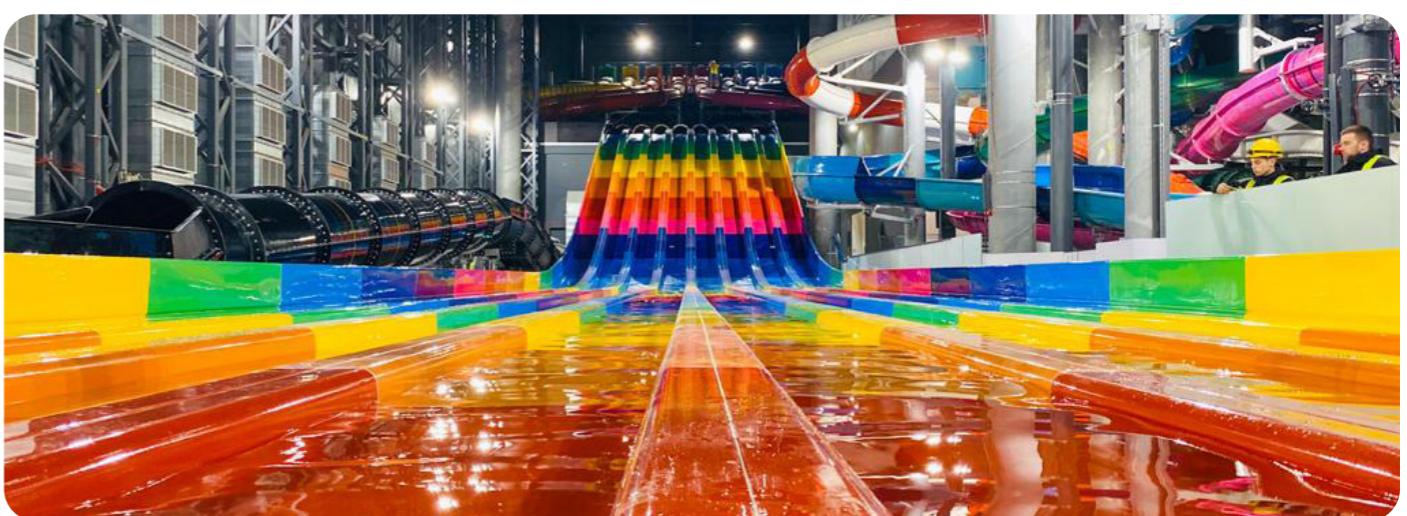

One of the installation company for waterslides in Europe. Fatih and Levent always alert if there is any problem during the installation and very good communication with them. Very professional and skilled team, all workers very polite and focussed in their job, we are working years together and we never had any trouble with any of their workers.

Also whole team control all tools, cranes, safety norms... Final client always very happy with them, no troubles, very easy going workers.
